HIGHLIGHTS OF THIRD-QUARTER BANKING INDUSTRY PERFORMANCE

- ***BANK EARNINGS SET A NEW RECORD FOR THE THIRD CONSECUTIVE QUARTER***

Commercial banks earned \$8.5 billion in the third quarter, surpassing record quarterly earnings of \$7.9 billion in the second quarter and \$7.6 billion in the first quarter. Year-to-date 1992 net income of \$24.1 billion is already approaching the full-year record of \$24.9 billion earned in 1988. The average return on assets (ROA) for the third quarter was 0.99 percent, the highest in the ten years banks have been reporting quarterly earnings.

- ***PROFITS ARE DRIVEN BY FAVORABLE INTEREST RATES AND LOWER LOAN LOSS PROVISIONS***

Lower short-term interest rates resulted in a \$3 billion increase in net interest income compared to the third quarter of 1991. This was the sixth consecutive quarter that net interest margins have widened. Lower long-term rates permitted banks to realize gains of \$1.3 billion on sales of investment securities. Third-quarter loan loss provisions of \$6.8 billion were up somewhat over the second quarter but were \$2.2 billion less than the third quarter a year ago.

- ***TROUBLED ASSETS DECLINE, BUT REAL ESTATE PROBLEMS PERSIST***

Noncurrent loans declined \$2.5 billion in the third quarter, more than offsetting a \$237 million rise in other real estate owned. The proportion of noncurrent commercial and industrial loans declined for the fifth consecutive quarter. Aggressive charge-offs improved noncurrent real estate loan rates overall, but 11 states showed some deterioration since the second quarter as additional problems surfaced. Banks hold nearly 80 cents in reserves for every dollar of noncurrent loans, up from 77 cents in June.

- ***EQUITY GROWTH CONTINUES IN THE THIRD QUARTER***

Retained earnings of \$5.6 billion and new equity offerings increased equity capital by \$8.8 billion to \$257 billion, compared to \$230 billion a year ago. As a percent of total assets, equity capital jumped from 7.23 percent to 7.39 percent during the third quarter. Based on Call Report data alone, 40 commercial and savings banks (with total assets of \$15 billion) are categorized as critically undercapitalized, down from 60 (\$25 billion) at the end of the second quarter. Of the 40 banks in this category at the end of September, 14 banks (\$8 billion) had failed by December 4.

- ***LOAN PORTFOLIOS REGISTER SLIGHT INCREASE***

Total loans and leases increased \$3.7 billion during the third quarter, reversing six consecutive quarters of shrinkage, as growth in home mortgage and consumer lending more than offset a \$6.6 billion drop in commercial and industrial loans. With the vast majority of banks comfortably above capital requirements and invested in liquid securities, the industry is positioned to meet an upturn in loan demand when it materializes.

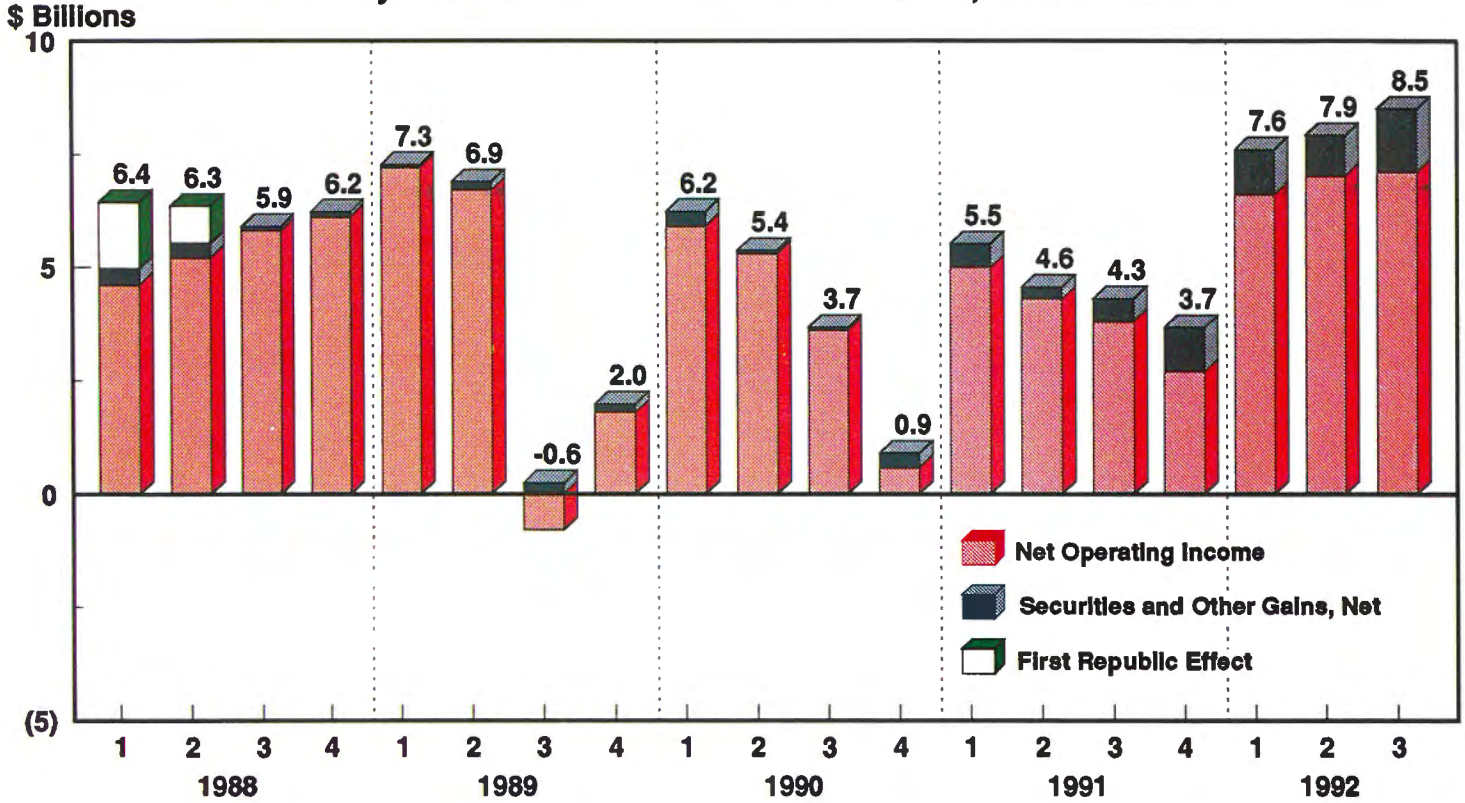

- ***BIF-INSURED SAVINGS BANKS REPORT EARNINGS OF \$354 MILLION***

The 421 savings banks insured by BIF reported a third consecutive quarterly profit. ROA was 0.63 percent for the quarter, compared to 0.37 percent in the second quarter and a negative 0.58 percent a year ago. At the surviving savings banks, troubled assets declined \$289 million during the third quarter.

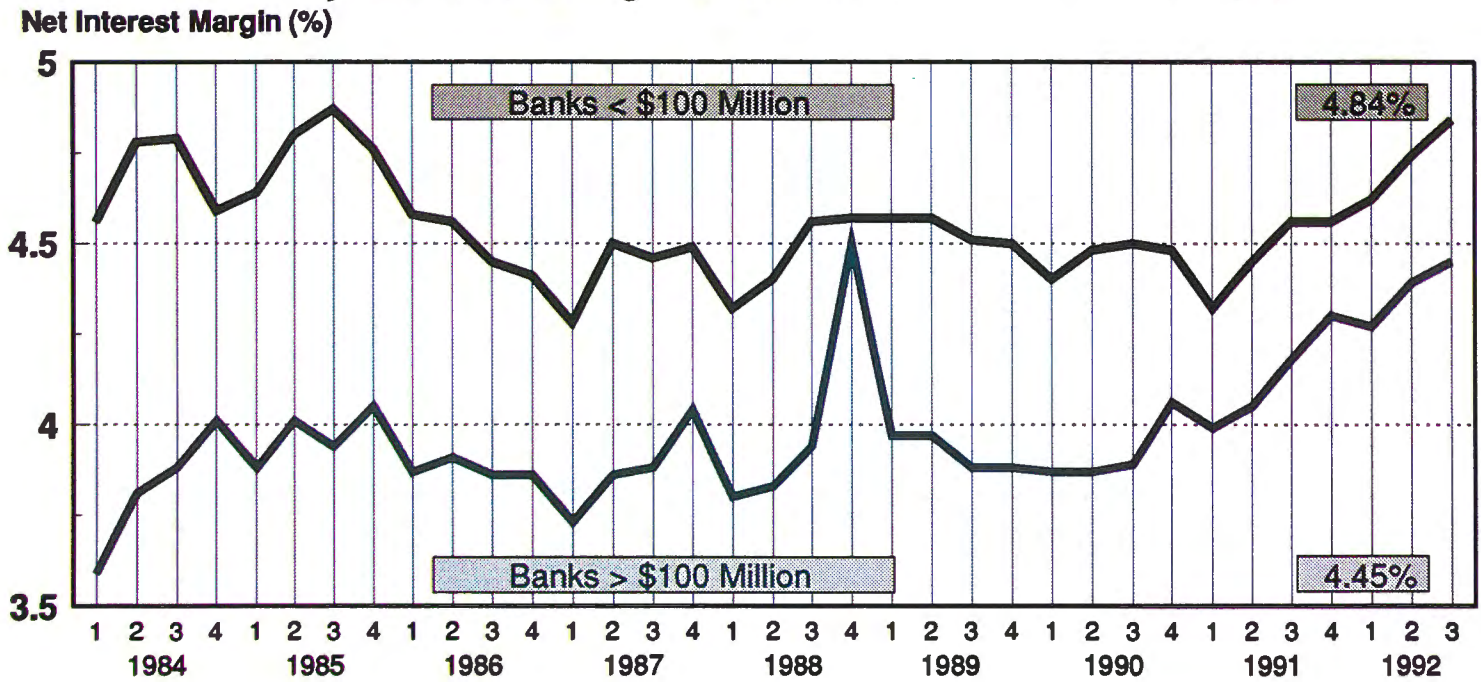

- ***THE NUMBER AND ASSETS OF "PROBLEM LIST" BANKS DECLINE***

On September 30 there were 993 commercial and savings banks on the FDIC's "Problem List", the first time since 1985 the number has been under 1,000. The assets of "problem" institutions, which totaled \$558 billion in September, have been declining gradually from their peak of \$609.8 billion at year-end 1991.

Capital Category Distribution
For All Insured Commercial Banks and
BIF-Insured Savings Banks as of 9/30/92

	Banks		Assets	
	Number of	Percent of Total	In Billions	Percent of Total
Well Capitalized	11,319	94.2%	\$2,852	77.0%
Adequately Capitalized	484	4.0%	\$777	21.0%
Undercapitalized	114	1.0%	\$36	1.0%
Significantly Undercapitalized	54	0.5%	\$22	0.6%
Critically Undercapitalized	40	0.3%	\$15	0.4%

Note: This table is based solely on Call Report data and does not reflect supervisory upgrades or downgrades. Of the 40 banks categorized as Critically Undercapitalized, 14 banks with aggregate assets of \$8.1 billion failed between September 30 and December 4. After December 19, 1992, all Critically Undercapitalized banks must be closed (unless an acceptable capital restoration plan is in place).

Capital Category Definitions

	<u>Total Risk-Based Capital *</u>		<u>Tier 1 Risk-Based Capital *</u>		<u>Tier 1 Leverage</u>		<u>Tangible Equity</u>
Well Capitalized	>= 10%	and	>= 6%	and	>= 5%		--
Adequately Capitalized	>= 8%	and	>= 4%	and	>= 4%		--
Undercapitalized	< 8%	or	< 4%	or	< 4%		--
Significantly Undercapitalized	< 6%	or	< 3%	or	< 3%		--
Critically Undercapitalized	--		--		--		<= 2%

* As a percentage of risk-weighted assets.

Note: Standards vary in some instances for the strongest banks, banks anticipating growth, and banks subject to supervisory agreements or directives.
