MERGER DECISIONS

ANNUAL REPORT TO CONGRESS

Bank Merger Act Reporting Requirements
(Saturday, January 01, 2011 through Saturday, December 31, 2011)

The Merger applications listed below have been approved by the FDIC during the year 2011. Regarding each application, the FDIC considered and found favorably with respect to the statutory factors, including the financial and managerial resources and future prospects of the existing and proposed institutions; the convenience and needs of the community to be served; the risk to the stability of the United States banking or financial system; and the effectiveness of each depository institution involved in the merger in establishing a program to combat money laundering activities, including in overseas branches.

Except as noted, reports regarding the competitive factors were requested from the Attorney General, and the Summary Report by the Attorney General indicated that the transaction would not have a significant adverse effect on competition.

In each case, the FDIC has determined that the transaction would not result in a monopoly or further any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States. In addition, the FDIC determined that the transaction would not have the effect in any section of the country to substantially lessen competition or tend to create a monopoly or in any other manner restrain trade, unless the anticompetitive effects of the transaction were clearly outweighed in the public interest by the probable effect of transaction in meeting the convenience and needs of the community to be served.

Finally, the FDIC determined that, for each interstate merger case (other than a case involving an insured depository institution in default or in danger of default), the resulting insured depository institution, including its affiliated insured depository institutions, upon consummation of the transactions would not control more than ten percent (10%) of the total amount of deposits of all insured depository institutions in the United States.

Note: Additional copies of this Report can be downloaded from the FDIC's Public Information Center's web site at: www.fdic.gov/bank/individual/merger.

Corporate Reorganization Mergers (Page 7 of 7, of 126 records)

Data Date(s) 01/01/2011 to 12/31/2011

Note 1: The Bank Merger Act does not require that the responsible agency request a report of competitive factors from the Department of Justice when the merger transaction solely involves an insured depository institution and one or more of the affiliates of such depository institution. See 12 U.S.C. 1828(c)(4).

Interim Mergers (Page 1 of 1, of 11 records)

Data Date(s) 01/01/2011 to 12/31/2011

Note 2: An "Interim Merger" is a merger (other than a purchase and assumption transaction) between an operating institution and a newly formed institution that will not open for business, which exists solely for the purpose of facilitating an acquisition and would have no effect on competition. Therefore, similar to the corporate reorganization-type mergers, the responsible agency need not request a report of competitive factors from the Department of Justice.

Failed or Closed Bank Mergers (Page 3 of 3, of 57 records)

Data Date(s) 01/01/2011 to 12/31/2011

Note 3: The "Other/Target Institution" is an institution that failed during 2011. The respective "Applicant Institution" is the competitive bidding winner to purchase certain assets and assume the liabilities to pay certain deposits of the "Other/Target Institution." The FDIC's Board of Directors found that immediate action was necessary, and therefore, the publication of notice and solicitation of reports on the competitive factors were not required. Thus, there is no "Department of Justice Reply Date," nor an "Application Number."

If the "Applicant Institution" is a non FDIC-supervised financial institution, the Primary Federal Regulator processed that merger application, and that application is not included in the FDIC's annual merger report.
