Banker Webinar: Update on the Standardized Export of Imaged Loan Documents Initiative

The FDIC is hosting a webinar for financial institutions on February 19, 2019, from 2:00 p.m. to 3:00 p.m. Eastern Time. This webinar will provide an update on the standardized export of imaged loan documents initiative, which was first introduced in [Financial Institution Letter \(FIL\)-22-2018: Advisory: FDIC Conducting Testing of the Standardized Export of Imaged Loan Documents](#).

The FDIC, in consultation with the Federal Financial Institutions Examination Council (FFIEC) members, developed the standardized export of imaged loan documents in an effort to streamline examination processes, reduce financial institution burden, and expand opportunities for conducting loan review examination activities offsite. The webinar will examine lessons learned from the testing period that concluded December 31, 2018. The webinar also will outline the potential benefits for financial institutions who implement this or other complementary solutions the FDIC is considering to improve the efficiency and effectiveness of examination activities.

Statement of Applicability to Institutions with Total Assets under \$1 billion: This Financial Institution Letter applies to all FDIC-supervised financial institutions.
